

Jenis Portofolio : Flutter/Java

"Masukkan di main.dart"

```
=====
import 'package:flutter/material.dart';

void main() {
  runApp(MyApp());
}

class MyApp extends StatelessWidget {
  @override
  Widget build(BuildContext context) {
    return MaterialApp(
      home: Scaffold(
        appBar: AppBar(
          title: Text('Portofolio : Proyek Mandiri'),
        ),
        body: Center(
          child: Column(
            mainAxisAlignment: MainAxisAlignment.center,
            children: <Widget>[
              Text(
                'Salam kenal!',
                style: TextStyle(
                  fontSize: 34,
                  fontWeight: FontWeight.bold,
                ),
              ),
              SizedBox(height: 10),
              Text(
                'Nama saya Kemas M. Aryadary Rasyad',
                style: TextStyle(
                  fontSize: 25,
                ),
              ),
              SizedBox(height: 0),
              Text(
                'Dari S1 Informatika',
                style: TextStyle(
                  fontSize: 21,
                ),
              ),
              SizedBox(height: 15),
              Text(
                'Saya berasal dari Palembang || umur saya 19 tahun || Hobiku makan ',
                style: TextStyle(
                  fontSize: 16,
                ),
              ),
              ElevatedButton(
                onPressed: (){
                  print(" wow ");
                },
              ),
            ],
          ),
        ),
      ),
    );
  }
}
```

```
        style: ElevatedButton.styleFrom(
          primary: Colors.red[400]
        ),
        child: new Text("TOMBOL ORANG KEREN!", style: TextStyle(color: Colors.white),)
      ),
    ),
  ),
);
}
```
